

Manufacturing Digital Exchange Series 2026

TURNING AI, IOT AND DATA INTO MANUFACTURING ADVANTAGE

19 August 2026, Wednesday | 9:30am – 2:00pm

Room 3503, Block 3, Level 5, Penang Skills Development Centre,
Bayan Lepas, Penang

Manufacturing is entering a new era. With rising operating costs, labour shortages and increasing pressure to digitalise, manufacturers are looking beyond automation to harness **AI, IoT and data** for greater efficiency, resilience and growth.

Join Malaysia's executive briefing on "**Turning AI, IoT and Data into Manufacturing Advantage**" as industry leaders share practical strategies and real-world insights on transforming manufacturing operations through smart technologies.

Discover how manufacturers can:

- Explore practical digitalisation journeys aligned with **Malaysia's Industry4WRD and NIMP 2030 initiatives**
- Learn how **SIRIM's Smart Tech Up Programme** helps accelerate smart factory transformation journey
- **Harness AI and IoT** to improve operational efficiency & productivity
- Build a resilient and scalable **digital foundation to support long-term transformation**

Why Attend?

- Gain practical insights – not sales pitches – from government, industry experts and technology practitioners
- Learn from real manufacturing experiences and implementation lessons
- Engage directly with experts during a live executive panel discussion
